THE SCREENWRITING ROADMAP

by
jeff bollow

FAST

The roadmap has moved

In September of 2011, we turned the Screenwriting Roadmap into our [new FASTscreenplay.com website](http://fastscreenplay.com). It includes everything in the original Screenwriting Roadmap report... **and a whole lot more.**

Producers *need* original screenplays (and they always will). Every movie idea must go through **the same process** to be turned into something producers can use.

FAST Screenplay *is* the screenwriting roadmap. It's a step-by-step **professional screenplay development system** built out of the **natural creative process.**

It all started when a producer actively seeking screenplays spent 10 years in search of a project, only to discover that 99% of all screenplays fail — they're **not even ready for serious consideration.** He decided to build the bridge.

Please visit the website and learn more. <http://fastscreenplay.com>

We're a not-for-profit system and we're here to help.
